PACIFIC UNION OIL CO.

Located in the Famous Coalinga Oil Fields of California.

Proven oil lands, completely sur-rounded by as rich oil-producing wells as there are in the State, yielding from 50 to 250 barrels per day

Contract prices for oil at the Coal-inga wells, 70 cents per barrel. With twenty-five producing wells of 100 barrels each per day, you can make your own calculation as to profits.

The oil industry of California is in

its infancy, yet many fortunes have been made by judicious and lucky investments in oil stock. Many more will be made in the near future

The average advance on original sales of oil stock in twenty leading companies in California has been from \$1 to \$108 per share.
Oil lands have advanced from \$1.25

to \$1,000 and \$2,000 per acre. When the Pacific Union Oil Company has a number of producing wells on its property, its stock will have the same show for even a greater advance, as some oil stock has advanced from \$1 to \$1,500 per share.

The Pacific Union Oil Company has no salaried officers, and is controlled by well-known gentlemen of integrity who will see that the money derived from the sale of stock will be legiti-mately applied to the development of

its property.

The ceremonial was the same as observed at the former presentation of medals, but the inclement weather robbed the function of its brilliancy. Considerable comment has been aroused by the refusal of thirty-two non-commissioned officers and men to attend the ceremony, on the ground that their pay was in arrears.
